

Mikhail Razakov

.NET Backend Developer

Moscow / remote · razakov.misha@mail.ru · t.me/Micodiy · github.com/Misha1302

HSE University, Software Engineering, 2026-2030. Open to internship or part-time work from September 2026.

I develop VpnMediator and CompilationLabLMS. My work includes subscriptions, payments, roles, devices, PostgreSQL/SQLite, migrations and background operation recovery.

3 projects: VPN, LMS and client licensing API	Payments: webhooks, idempotency, refunds and outbox	Linux: Docker Compose, nginx, systemd and backup/restore
---	---	--

Experience

VpnMediator / Razaltush VPN · 2026-present

- Subscriptions, access rights, devices, Telegram interface and configuration delivery.
- Payments, outbox, operation log, migrations, backup/restore and rollback.

CompilationLabLMS · 2026-present

- Roles, groups, lessons, homework, notifications and chat.
- PostgreSQL, balance ledger, YooKassa, webhooks, refunds, cookie auth and CSRF.

Client licensing API · 2023

- Key issuance and validation, activation states and administrative operations.
- OpenAPI/Swagger and error responses.

Technologies

C#, ASP.NET Core, REST, OpenAPI/Swagger, PostgreSQL, SQLite, migrations, transactions, outbox, Docker Compose, nginx, systemd, Linux
