

I combine experience teaching about 50 students with LMS backend engineering: roles, groups, lessons, homework, feedback, balances, payments, and operations.

≈50 students

diagnosis, explanation, code review

2 EdTech products

LMS backend and public-platform support

Correct state

roles, balances, payments, recovery

EXPERIENCE

- 2021 — PRESENT

Programming tutor and mentor

 - Knowledge diagnosis, explanations of algorithms/architecture, and measurable checkpoints.
 - Code review and project-delivery support.
- 2026 — PRESENT

CompilationLabLMS

 - Student/teacher/admin roles, groups, lessons, homework, notifications, and chat.
 - Balance ledger, payments, verified webhooks, and idempotent completion.

SELECTED PROJECTS

- Diploma.school**

Responsive navigation, materials, PDF previews, and Telegram integrations.
- VpnMediator**

Transferable payment/access/recovery experience.
- Wist**

Public API, documentation, and controlled execution surfaces.

SKILLS

- EdTech domain**

learning workflows, roles, feedback, teacher/admin scenarios
- Backend**

C#/.NET, PostgreSQL, REST, payments, webhooks
- Product support**

user feedback, responsive regressions, production checks
- Teaching**

C/C++, C#, Python, algorithms, architecture

EDUCATION

Software Engineering student at HSE University

RECOGNITION

Top MEPhI Junior results in 2025/2026; Baltic Grand Prize.

TECHNICAL COMMUNICATION

About 50 students, 5.0 rating, individual programs, and code review.

AVAILABILITY

Moscow / remote · up to 20 hours/week from September 2026
