

Mikhail Razakov

.NET Backend Developer

JUNIOR / INTERNSHIP

ASP.NET Core · PostgreSQL/SQLite · state · recovery

Moscow / remote misha13022008@gmail.com t.me/Micodiy github.com/Misha1302

PROFILE

I build .NET services with explicit state, idempotent operations, migrations, and verifiable recovery. Backend remains a separate targeted profile rather than diluting the compiler version.

KEY EVIDENCE

Explicit state Subscriptions, payments, roles, devices, and idempotent transitions.	Recovery gates Migrations, audit, reconciliation, backup/restore, and rollback.	Correctness verification Exact-oracle, differential, and metamorphic testing, replay/reduction, and conservative fail-closed decisions.
---	---	---

EXPERIENCE

.NET backend — VpnMediator and CompilationLabLMS

2026 — present

ASP.NET Core · PostgreSQL/SQLite · Linux

- Designed subscription, payment, role, and device state; implemented migrations, recovery, backup/restore, and rollback gates.

Programming Instructor and Technical Mentor

2021 — present

Algorithms · languages · execution models

- Teach algorithms, C/C++, C#, Python, ABI fundamentals, and execution models; review code and design learning paths.

SELECTED PROJECTS

VpnMediator

.NET backend · state · recovery

- Subscription-service backend with an explicit access lifecycle, idempotent operations, and verifiable recovery.

CompilationLabLMS

.NET backend · roles · ledger

- Learning platform with explicit roles, balance accounting, and critical-flow gates for payment operations.

SKILLS

Backend	C#/.NET, ASP.NET Core, REST/OpenAPI, background services
Data	PostgreSQL, SQLite, transactions, migrations, state machines
Reliability	idempotency, audit, reconciliation, backup/restore, rollback
Tools	Linux, Git, Docker Compose, nginx, systemd, GitHub Actions

EDUCATION AND RECOGNITION

HSE University — Software Engineering program, since 2026.	HSE Vysshaya Proba prize-winner in competitive and industrial programming; two-time first-degree diploma recipient at the MEPhI Junior competition.
